

Creating truly inclusive workplaces, together.

Many Autistic individuals face significant barriers to fair and meaningful employment.

Workplaces are often not designed with neurodiversity in mind, leading to high unemployment, limited career growth, and social isolation. Despite growing awareness, most organisations lack the knowledge and tools to create truly inclusive, accessible, and autism-friendly workplaces.

We're changing this reality.

Working in partnership with organisations, we are reshaping workplaces to be more accessible and inclusive of Autistic people and those with other hidden disabilities.

Our approach goes beyond awareness and information. It's:

- **Co-designed** – Developed with autistic people, ensuring authenticity and lived experience.
- **Proven** – Backed by leading research and best practices.
- **Comprehensive** – complete framework for lasting impact, not just surface-level tips.
- **Practical** – Clear, actionable steps that drive real results.
- **Inclusive** – Benefits everyone, everywhere, creating workplaces that support all employees.

Together
we can create an
autism-friendly
Australia.

Introducing: Aspect Autism Friendly Employment

Aspect Autism Friendly Employment equips organisations with the knowledge, tools, and support to create truly inclusive workplaces.

Build autism understanding

Our education programs help organisations deepen their knowledge of autism and hidden disabilities, break down misconceptions and stigma and equip leaders and teams with the skills to create inclusive environments.

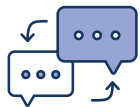

A comprehensive framework for change

We partner with organisations using our Autism Friendly Employment framework to assess current practices, identify opportunities, and drive meaningful change.

Practical tools for inclusion

Our evidence-informed approaches offer easy-to-apply tools that help organisations embed inclusive practices effectively.

Tailored consultancy support

We work closely with organisations to develop customised solutions that align with their unique needs and goals.

Partner with us

Creating an autism-friendly environment isn't just about inclusion—it's a smart business decision:

- **Empowers your workforce:** An inclusive workplace realises increased collaboration, loyalty, and innovation.
- **Enhances customer experience:** Accessibility resonates with Autistic individuals, their families, and the broader community.
- **Strengthens your brand:** Align with your values and stand out as a leader in social responsibility and inclusion.

Partnering with Aspect Autism Friendly Employment means empowering your organisation to make meaningful change.

Together, we can create a world where Autistic people, and those with hidden disabilities, feel welcome, supported, and included.
