Aspect study tours

Experience autism-inclusive education in action

Aspect's study tours are immersive, professional learning experiences designed for educators and leaders who are passionate about improving outcomes for Autistic students.

These tours offer a unique opportunity to engage directly with Aspect's evidence-informed practices and student-centred approach across our network of schools. Through presentations by our Education and Practice team as well as Autistic consultants, guided site visits, and open dialogue, participants gain practical insights into how we create inclusive learning environments that recognise and celebrate the strengths, interests, and potential of every student on the autism spectrum.

A leader in Autism education, Aspect (Autism Spectrum Australia) operates one of the largest networks of autism-specific schools globally. With over 59 years of expertise, we empower educators, families, and systems to reimagine what inclusive education can look like.

Who should join an Aspect study tour?

Our study tours are ideal for school leaders, educators and policymakers who are committed to improving outcomes for Autistic students. Whether you're just beginning to explore autism-friendly practices or looking to deepen existing knowledge, the tour offers value at every stage.

Why join an Aspect study tour?

- See best practice in action
- Immersive hands-on learning and resources
- Learn from expert practitioners
- Experience our strength based, student-centred framework
- Build meaningful partnerships

> *"Our Aspect study tour was inspiring and provided us with a rich learning experience and practical tools we can implement in our own schools"*
> *– STAFF FROM AWWA LTD, SINGAPORE*

Autism Spectrum Australia

Aspect professional development and consulting

Learn from the leaders in autism specific education

Aspect provides professional development that's evidence-informed, neurodiversity-affirming, and grounded in 59+ years of autism-specific expertise. Our training is designed to build whole-school capacity so that Autistic students can thrive, academically, socially, and emotionally within inclusive mainstream settings. Our professional learning draws on the lived experience of Autistic individuals and the trusted practices developed in Aspect classrooms across Australia.

> *"It was invaluable to see successful strategies implemented at scale."*
> *– INCLUSION COORDINATOR, VICTORIA*

Who should consider Aspect professional development and consulting programs ?

Our professional development and consulting is ideal for school leaders, educators and all those committed to improving outcomes for Autistic students. Our programs are tailored to suit the needs of the organisation and participants.

Why consider an Aspect professional development program?

- **See best practice in action**
  Understand what autism-specific education looks like in real classrooms. Learn how multi-tiered supports empower students on the autism spectrum to thrive.
- **Immersive and hands-on learning**
  Build on basic theory with a thoughtfully designed session ot program that includes hands on, practical planning sessions tailored to your context.
- **Learn from leading practitioners**
  Gain insights from Aspect's education leaders – part of Australia's largest autism-specific education provider – with decades of experience in supporting Autistic students through evidence-informed practice.
- **Strengths-based and student-centred**
  Discover how we embed student voice, identity, and individual learning goals into every part of our framework, celebrating the unique strengths of each learner.
- **Build meaningful partnerships**
  Whether you're just beginning or expanding your journey in autism education, Aspect professional development is a gateway to lasting collaboration.
