

Are you an Autistic adult who plays video games or tabletop games?

Share your thoughts on gameplay and social connection

We are conducting a survey to understand how video games and tabletop games relate to feelings of loneliness and social connection in Autistic adults.

Who can take part?

You are invited to take part if you:

- are Autistic (formally diagnosed or self-identified)
- are aged 18 years or older
- have played video games and/or tabletop games in the past three months
- live in Australia

What is involved?

- A ~20 minute anonymous online survey
- Questions about gaming experiences and feelings of connection
- Optional open-text questions
- You can skip any question or stop at any time
- No identifying information is collected

Complete the survey
