

Help create more inclusive workplaces

Are you an owner or hiring staff member of an Australian small or medium business (fewer than 200 employees)?

We need your input! Aspect is conducting a research study to understand what helps – and what makes it harder – for Autistic people to work in small and medium businesses.

Your insights will help shape practical strategies to build more inclusive workplaces.

What's involved?

Complete a 20-minute online survey about your workplace, demographics, and experiences or attitudes toward employing Autistic people.

Win a \$200 gift card!

Everyone who completes the survey goes into the draw to win a \$200 GiftPay card that can be used at 100+ retailers.

The winner will be notified by email.

*T&Cs available from survey
